

## **I-80; State Street to 1300 East Salt Lake County Construction Notification**

---

Construction is currently underway along I-80 from State Street in South Salt Lake to 1300 East in Salt Lake City. Crews are currently widening eastbound I-80 to accommodate traffic for the permanent construction that will take place beginning in January 2008.

The current work involves widening the existing structures on the outside and inside shoulders of eastbound I-80. In order to minimize impacts to the traveling public and to reduce the overall construction schedule, night work is taking place. Crews are taking all necessary safety precautions and minimizing noise as much as possible during the night time hours.

The contractor is currently evaluating modifications to equipment to further reduce noise during night time hours. Crews have been working on the outside shoulders to date and plan to shift work activities to the middle of the I-80 corridor on September 22, 2008\*. Please see the reverse for the project construction schedule.

*\*The schedule is subject to change due to weather, materials, or equipment related issues.*
